

# Education

## Services

### Classroom Technology

Audio, video, room automation/control, sound reinforcement and interactive technologies that support group instruction, collaborative learning and formative assessment.

### Time Synchronization Technology

Wireless/wired clock solutions for individual building, campus or entire school systems.

### Life Safety

Fire and mass notification.

### Security

Video surveillance, access control, personnel and asset tracking, analog and digital video archiving.

### Audio Reinforcement

Athletic venues, performing arts centers and large group instruction/multi-purpose rooms.

### Paging

Analog, IP, zoned, campus-wide, enterprise communications.

### Instructional Technologies

Distribution and control of analog, digital and “on-demand” visual resources.

### Digital Signage

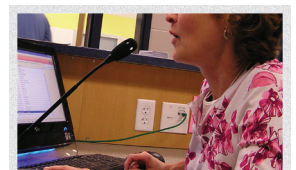

Building and campus-wide.

### Boardroom Technology

Audio, video, computer display and control systems, custom-built technology presentation podiums.

## Experience

ESCO was founded 50 years ago to work closely with customers to meet their individual needs. At ESCO Communications, we focus on our customers to develop system solutions that exceed expectations. Education, and the way in which it is delivered, continues to evolve. It is imperative that schools develop their tools to stay current with these new learning techniques. The solutions provided by ESCO Communications give schools the ability to do just that. We know that in education, the results of our systems speak for themselves. We have worked with numerous educational institutions to provide systems that change the way they teach and the way their students learn, including:

Carmel Clay Schools  
Indianapolis Public Schools  
Lebanon Community Schools  
MSD of Pike Township  
MSD of Steuben County Schools  
MSD Warren Township  
MSD Wayne Township  
North Adams Community Schools  
Richmond Community Schools  
Taylor University  
Warsaw Community Schools  
Whitko Community Schools
