

Overview

“Our reputation depends on getting it done right.
Delivering tomorrow’s technology solutions from a company
that wasn’t born yesterday.”

ESCO Communications has a rich history of success and growth dating back to 1963. The company has grown to providing solutions across the nation with over 100 dedicated professionals based in Indianapolis, Fort Wayne, South Bend, and Richmond/Dayton.

Headquartered in Indianapolis, ESCO is an audio, video, communication, data and security systems integrator. As a systems integrator, we provide creative solutions using best of breed technologies for our customers. Solutions include healthcare communication integrations, video presentation systems, educational technologies, pro audio & lighting, audio reinforcement, life safety, fire alarm, security (video surveillance, card access), digital media and archival technology. At ESCO, we work with you from the conceptual design through implementation, training, and service.

ESCO has experienced exceptional growth through the healthcare, data, video, audio, and security systems we provide. As a systems integrator we are a “Value Added Reseller” for companies such as Hill-Rom, Samsung, Dukane, EST, Panasonic, JBL, Crown, Bose, IDenticard, and many other industry leading manufacturers. We employ highly skilled technicians, network & design engineers, project managers, account executives and customer service representatives to ensure that every customer is a good reference. It is that commitment to our customers that has fostered our growth.
